1 Report of the Trustees of the Fay Library Mar¹⁵th 1853

The Committee chosen by the trustees to report in behalf of the Trustees the history condition and prospect of the Fay Library to the Friends Southborough at their annual march meeting submit the following as their report;

They have received of the Hon Francis B. Fay the sum of five hundred dollars which they appropriated a year since to the purchase of 718 Volumes paying therefor the sum of \$479.58 and 241 Volumes free from the Town Library; said Library they likewise have received of Henry Gosset Esq. of Boston two Volumes and subsequently 12 Volumes of Uncle Tom's Cabin making in all 973 Volumes belonging to the Library. Jan¹st 1853 bought 58 Volumes since for the sum of 40 dollars and 8 Congressional and four report of patents from members of Congress for the Fay Library making in the whole on the 1st day of March 1853-1068 Volumes they are happy to report that 3293 Volumes were delivered from the 17th opening to the 31st. The means of ascertaining the numbers delivered during the previous openings cannot be so correctly found it being new business requiring experience to adopt an easy method of keeping the books in a simple and intelligible manner-but if add the 16 previous openings at the same rate it would show a delivery of over 5000 Volumes and the same returned during the year. The Trustees were highly gratified to find that little damage was done to any of the books and that of \$9.85 incurred as fines the sum of \$6.95 has been promptly paid and added to the treasury for the purchase of new books which speaks well for the judgment of the donor that he did not cast his pearls before swine No. 527 titled Farnous Indians and No. 717 Litchingham Siege of Boston charged to Sam^l Brigham are supposed to have been burnt, No 939 Uncle Tom's Cabin and 652 Diseases of Animals were delivered to William Strong who has absconded and provably carried them away and No 409 There has been no assessment of damages on any one the past year although books have been returned somewhat damaged and the reason for this seems to be that the damage progresses slowly no one individual doing it all and hence no one can be made responsible for it. To the credit of our Librarian we will say that he has kindly exceeded his duties, and made reparations for this uncontrollable part of his business by repairing many books with a skill that reflects great credit upon his heart and hands making them almost as good as new

315
Report of the Trustees Continued 1853

There is another on which depends the existence of the Library, of which we will speak, it pertains to preserving unaltered the conditions of the donor and yielding compliance thereto we suggest that there has not been sufficient attention paid to this matter. The letters containing these conditions are at present only in a loose state consigned to the care of no one in particular as though they were of no more importance than common communications liable to be lost in a thousand ways; now they are too precious to be left in this way 1st from the character of him from whom they came 2^d from their relation to so important a matter as the good dollars investment 3^d from the distinguished character of the investment it being in scientific treasures of slight value designed not only for the present but coming generations & will at no distant day stamp moral and intellectual character of the Town therefore these documents should be put in such shape as to run no risk of loss and to give no occasion to quarrel about them we then recommend that these letters be recorded on the Town Book leaving this part of the subject to your own wisdom and just decision. In agreement with the action of the Town March 22^d 1852 when they adopted the report of their Com., to whom was referred the alteration of the by laws of the T. Lib., and we have found it necessary to revise these laws in two particulars to correspond with said action viz, the choice of its Trustees and the change of time of the annual meeting of the Library. To correspond with the time of the choice of its Trustees which will be of course at your March Meeting. In view of the necessity of these changes and the incompleteness of the Catalogue the Trustees have felt authorized to incur to the Town the expense of publishing a new Catalogue embracing all these additions. we would also speak of the effects of this reading. Among the things worthy of note is the evidently increased intelligence of many of our citizens and the healthy influence produced upon the minds of our children & youth by the pure and rational enjoyment which they derive from the perusal of the books; all this is evinced from the eager anticipation with which they look forward to Saturday when they will enjoy a new intellectual feast we may also say from an examination of the Librarians Books that by very many families a large number of books have been read if it were proper we should be glad to mention names

End of the Report of the Trustees

213
1853

Honorable for this distinction but the fact is sufficient it shows that the object contemplated by the donor is being accomplished that intelligence is being diffused and its results gentlemen you can anticipate who shall depict the bright career which lies before us if we are true to our highest interests & destinies. If we the fathers are animated and ennobled by the companionship of distinguished and illustrious men - if our mothers, wives & sisters are cheered, refined & elevated by mingling in sweet communion with renowned & pious women drinking in their most mature & cultivated thoughts, as we find them carefully written out, in this Library, what must not what will not be the power of such companionship on our youth and children, Already we see them rising animated by the glow of ^{their} thoughts guided by the light of their teachings to new points of eminence and wider fields of observation till looking up through the long broad vista of time, coming generations, swell upon our vision in resplendent ascendancy upward & onward from glory to glory;

Let us then cherish these distinguished authors encourage our children to do so derive all the improvement we may from their writings and daguerreotype upon our hearts and the hearts of our children a picture of gratitude to the giver of so good a gift

Preamble and Resolutions March 6th 1834

~~Resolved~~ ~~that~~ ~~the~~ ~~following~~ ~~Preamble~~ ~~and~~ ~~Resolutions~~

Whereas a bill has been introduced into Congress at its present session, and is now under consideration in the Senate entitled a bill to establish the Territories of Nebraska and Kansas, in which there is a provision which in effect repeals and repeals that provision the Act of Congress of 1820 known as the Missouri Compromise Act, which provides that all that part of the Territory acquired by treaty from France which lies north of $36^{\circ} 30'$ north latitude shall forever be free from Slavery and involuntary servitude except from Crime

And whereas the passage of the aforesaid bill would be a breach of the compact then made between the north and the south, in regard to the Territory which should be forever devoted to freedom - a direct and palpable violation of the good faith honour and integrity of the South and of a gross outrage upon the rights interests and prosperity of the Free States, inasmuch as it wrenches from freedom and free labor and opens to the curse and blight of Slavery, a fertile tract of Country vast in extent enough for sixty-four States of the size of our own Massachusetts therefore, ~~Resolved~~ That in the name of liberty, in the name of the declaration of Independence and the spirit of the Constitution of the United States which declares all men born free and equal in the patriots of the revolution in the name of our Fathers who in 1820 consecrated this vast Empire to freedom in our own names and in behalf of our wives and children, and in the name of posterity through all future time we earnestly protest against the passage of this aforesaid Bill by Congress or any Bill abrogating or impairing in any manner or degree the Act of 1820 prohibiting Slavery to enter the aforesaid Territory.

1st Resolved, that we rejoice that Massachusetts the land of the pilgrims, is not to be disgraced, by any one of her Representatives in either branch of Congress, advocating or voting for this unjust and outrageous measure.

3^d Resolved that we will hereafter discard all our public servants who disregard the well known convictions and interests of their constituents, the honor of the State and the welfare of our common Country, by any Act tending to jeopardize or convert to Slavery Territory now free

241
March 6th 1854

Preamble and Resolutions Continued.

1st Resolved, That the Compact by which the section of Country now known as Nebraska & Kansas was forever consecrated to Freedom have ever been regarded by all fair minded men as no less sacred even more unalterable than the Constitution itself.

2^d Resolved, That the Freemen of the North in view of the past demonstrations of the slave power have long seemed against the clearest light in believing that tyrants who wining their daily bread from the unpaid toils of their fellow men would be faithful to any promises or bound by any compacts which in any way interfered with the extension or endangered the perpetuity of the slave system.

3^d Resolved That as the advocates of Slavery have now broken through their most solemn compacts with Freedom whether in the Constitution or outside of it, it is now the imperative duty of the great Company of Northern Freemen, who live by honest labor to repudiate at once and forever the traitorous Acts, of their gambling political leaders who have bartered the rights of Freedom for place & power & annul all Compromises with Slavery wherever found as sinful & unclean things fit only for destruction.

6th Resolved That the Town Clerk be directed to forward a Copy of the foregoing resolutions to our Representative in Congress to be by him laid before that body & offer them for publication in the Worcester Spy, Palladium, Atlas, Post, and Commonwealth.

Report of the Committee on the Hay Library.

The Committee chosen by the Trustees of the Hay Library to report in their behalf to the Town, the condition of said library, respectfully submit the following report

It is found on March 1st 1853 there were belonging to the Library 1118 volumes and on the 1st of March 1854 the number had increased to 1118 volumes together with 7 Nos. of the History of Boston which have not yet been placed upon the shelves for the reason that it was thought best to have them bound before they were let out

It is found by the report of the Librarian that there has been delivered during the past year 3819 volumes which we are happy to say have all been returned without material injury more than could reasonably be expected from using that not a volume has been lost since the last report to the Town

The largest number of books delivered in one week was 181 and the smallest No. 33

Since Mr. Este the present Librarian has had charge of the Library he collected and paid to the Treasurer of the Trustees \$90.70 fines incurred by reason of books not being returned agreeably to the by Laws and there now remains due of fines unpaid \$5.51 some of which probably never will be paid; notwithstanding the by Laws require the Librarian to withhold the use of the Library from all persons from whom fines are due when requested to do so.

It would say for the Librarian that we believe he has been faithful in the discharge of his duties and so far as we know has given universal satisfaction several volumes which from being poorly bound have needed repairing and but for being promptly attended to would have been ruined he has repaired free of charge, thus preventing the necessity of getting new ones in their stead
